United States Congress. Washington, December 11, 1854. SENATE. - Mr. Badger presented the credentials of Mr. Reid of North Carolina, and be was qualified and took his seat. Mr. Adams of Mississippi, introduced a bill to establish an uniform rule of naturalization, extending the time for naturalization to 21 years and acting prospectively upon those foreigners only who may enter the United States after the passage of said act. Mr. Adams addressed the senate at some length in support of his bill. He argued that in one hundred years every inch of the American continent would be required for the support of the American people, and self-preservation required that no induce. ments should be held out to immigration. He disclaimed any infection of Know-Nothinism or hostility to foreigners; but he thought immigration dangerous, inasmuch as foreigners had banded themselves together with the abolitionists. When he had heard

Nothings, he agreed with them. House .- Mr. Clingman asked leave to offer a resolution requesting the President to tender the mediation of the United States in such manner as in his judgment may be most likely to lead to the pacification of the conflict between the Allied Armies and Russia Mr. Hamilton from a sence of duty objected to the introduction of the resolution. The House refused to suspend the rules to admit the resolution.
